[www.prntgame.com/LTHG](http://www.prntgame.com/LTHG). THE ONLY REASON I CREATED THIS BOOK IS -- all the other books I found didn't satisfy two basic requirements: to have a sufficient number of practical pages and not to be boring. If we analyze negative comments under different Letter Tracing (Handwriting Practice) books, we'll see exactly the same two problems. PROBLEM # 1: LACK OF PRACTICAL PAGES. This problem is accompanied by the following comments: «Not so many pages as expected», «We will use it but will be looking for something with more pages», «need to cut the pages out and put them into page protectors and use dry erase markers», «two pages are not enough» etc. If we look at a huge number of letter tracing (handwriting practice) books, we'll see the following: most often, two pages are allocated to tracing a single letter -- one for uppercase and one for lowercase letters. Two more pages are allocated to tracing a certain word, which begins with the

specified letter. A total of four pages per letter. And this is at best. Most books are simply limited to two pages per letter. We use 6 pages per letter plus combined pages (different letters on one page). Training takes place from simple, where you just need to trace letters with the guides provided, to a more complicated one, where you need to write letters without guides, or enter missing letters into words. It uses additional activities that make this process interesting, fun and desirable (see the "PROBLEM #2" below). You need to understand that the same children don't exist. Each child needs its own number of practical pages to consolidate their skills. Many people try to solve this problem with different tricks, like cut a page, laminate it and use an erasable marker to trace letters. I think this is a very tedious task, don't you? ;) Therefore, WE OFFER YOU A COLOR DIGITAL (PDF) VERSION OF THIS BOOK FOR FREE AS A BONUS. Nobody does that! At least I couldn't find it. You can print it for personal use. You no longer need to do any tricks with the book. The only thing you need to do is register your print copy at [www.prtngame.com/LTH](http://www.prtngame.com/LTH). It's easy and takes less than a minute :) **PROBLEM # 2: BOREDOM.** This problem is accompanied by the following comments: «the book has no diversity in the tracing of the letters», «I wish it was a bit more interactive», «I just wish it was a bit more engaging and fun. My child got bored easily» etc. Yeah...

The child quickly gets bored to lead a pencil along the guides provided. We solve this problem with additional exciting activities: find and color the pictures that start with the letter; find the letter in a letter search; find the words with the letter in a word search; fill the word with a missing letter; read "interesting notes" about animals that start with the letter and more... Another important point. Answer yourself one question - WHAT DO WE PAY FOR WHEN WE BUY THIS KIND OF BOOK? Is it for a certain set of pages? NO. WE PAY FOR THE RESULT. We expect the child to gain new knowledge or skills as a result of working with a book. Unfortunately, today among a huge number of books there're a lot of cheap crap. MY GOAL IS TO MAKE YOUR CHOICE RESPONSIBLE, NOT SPONTANEOUS. You must clearly understand why you are choosing a particular book among all the other existing books. IMPORTANT! The print edition comes in black and white. Only the PDF version is in color. If you need any help, just email me at [tom@prntgame.com](mailto:tom@prntgame.com). I wish your children nothing but success... Tom Martyn

Lectionary Preaching Workbook May 20 2020 Bigger, stronger, better! Russell Anderson has taken the most original and successful lectionary resource in history and improved on it. He has kept all of the traditional features that have made it a classic, such as: overviews of each liturgical season, commentaries compatible with the Revised Common and Roman Catholic lectionaries (plus Lutheran and Episcopal lections for those gradually converting to the Revised Common Lectionary), an introduction to the featured Gospel narrator (Matthew, in Cycle A), theological reflections for exploring the relationships between the texts, and wide margins for note-taking. Instead of stopping there, though, he has added: a 7" x 10" one-size-fits-all format, a suggested sermon title for each week, a Sermon Angle that briefly

explicates the theological theme for the day (sometimes providing two or three of them), and illustrative stories in each chapter. Contained are crisp, tightly written lectionary helps that zero in on the critical themes of the texts, augmented with illustrative materials. The Prayer of the Day suggestions summarize and apply the themes in helpful language. The Reverend Dr. Dennis Anderson President, Trinity Lutheran Seminary Pastor Anderson's ability to relate eternal truths in the language of our 20th century society will enable those informed by his writings to communicate the TRUTH in a way that will gain attention and guide the living of life. The Reverend Dr. Reuben T. Swanson Former Bishop, Nebraska Synod, Lutheran Church in America Former Secretary, Evangelical Church in America Russell F. Anderson is pastor at Holy Cross Evangelical Lutheran Church in Omaha, Nebraska. He received his master of divinity degree from The Lutheran School of Theology at Chicago and his doctor of ministry degree from McCormick Theological School in Chicago. He has published his own worship and homiletical resources under the banner "Worship Windows." He is married and the father of two grown daughters.

**Chinese Made Easy 6 - textbook including workbook. Simplified character version** Aug 15 2022  
*Japanese for Busy People I* Nov 25 2020 Japanese for Busy People is the most popular Japanese language textbook series in the world. With over 20 components including texts, workbooks, CDs, videos and teacher's manuals, it is also one of the most comprehensive. Now,

a decade after its first revision, the entire series is being redesigned, updated and consolidated to meet the needs of 21st-century students and businesspeople who want to learn natural, spoken Japanese as effectively as possible in a limited amount of time. The book features not only a sleek, new design but also a unit structure that groups thematically linked lessons together, making it easier than ever to learn Japanese. Moreover, it now comes with a CD containing audio for the dialogues and listening exercises from the text. The exercises in the book have also been thoroughly revised to incorporate more comprehension and production tasks. Many of these exercises are illustrated, making for a stimulating learning experience, and the purpose of each one is clearly stated. This first of three volumes introduces "survival Japanese"—the absolute minimum amount of Japanese needed to live in Japan. Thus, the vocabulary and grammatical items it introduces are limited to about a third of what is typically introduced in a first-year course. In addition, the book features notes on Japanese culture intended to expand the learner's understanding of Japan, its customs and people. Japanese for Busy People I is available in two formats: romanized and kana. The Romanized Version uses romanized Japanese throughout, with kana in the Opening Dialogues of each lesson. The Kana Version—exposing students to hiragana and katakana from the very

beginning—uses only kana. The content of the two books is otherwise exactly the same. The companion volume, *Japanese for Busy People 1: The Workbook for the Revised 3rd Edition* contains a variety of illustrated exercises for mastering the basic sentence patterns presented in the main text.

*Deep Learning* Sep 04 2021 An introduction to a broad range of topics in deep learning, covering mathematical and conceptual background, deep learning techniques used in industry, and research perspectives. “Written by three experts in the field, *Deep Learning* is the only comprehensive book on the subject.” —Elon Musk, cochair of OpenAI; cofounder and CEO of Tesla and SpaceX Deep learning is a form of machine learning that enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers deep. This book introduces a broad range of topics in deep learning. The text offers mathematical and conceptual background, covering relevant concepts in linear algebra, probability theory and information theory, numerical computation, and

machine learning. It describes deep learning techniques used by practitioners in industry, including deep feedforward networks, regularization, optimization algorithms, convolutional networks, sequence modeling, and practical methodology; and it surveys such applications as natural language processing, speech recognition, computer vision, online recommendation systems, bioinformatics, and videogames. Finally, the book offers research perspectives, covering such theoretical topics as linear factor models, autoencoders, representation learning, structured probabilistic models, Monte Carlo methods, the partition function, approximate inference, and deep generative models. Deep Learning can be used by undergraduate or graduate students planning careers in either industry or research, and by software engineers who want to begin using deep learning in their products or platforms. A website offers supplementary material for both readers and instructors.

*In Russian? With Pleasure! - Grammar Workbook & Exercises - Book 3 - EN Version* Sep 16 2022 This grammar workbook is an annex to the textbook *In Russian? With pleasure!*, book 3. It covers grammatical material used for speech skills pursuant to the topics of the textbook lessons. Each lesson in the grammar workbook corresponds to a lesson of the textbook *In Russian? With pleasure!*. Each lesson gives a detailed explanation of the studied topics of grammar, followed

by exercises. At the end of the grammatical workbook the keys to exercises are given, as well as the tables of studied cases of nouns, adjectives, personal pronouns and the use of prepositions. This grammar workbook does not give a total review of the grammar of the Russian language. It covers exclusively the grammatical material, needed for the study of the topics of book 3 *In Russian? With pleasure!*. The grammar workbook & exercises, Book 3 exists in an English version and in a French version. The textbook *In Russian? With pleasure!* is intended for adults beginning to study Russian, as a foreign language. It can be used both in the conditions of a multilingual environment and in a Russian-speaking environment. Book 3 - the third part of three - is designed for 60-70 hours of lessons with a teacher in groups of multilingual students or for selfstudy with a view to reviewing. The structure and the submission of material correspond to level B1 in the European system of references CECRL. The present method has been checked in the multilingual environment of Brussels. It has been used for a few years in the Russian language courses in Brussels at the school "Vera Smirnova Co - East-West Information Services", in the evening courses in Institut Libre Marie Haps, as well as in various companies and organisations.

**Scripture Workbook: Second Edition; 2 Volumes In 1** Aug 23 2020 This book contains two volumes previously only available separately. It contains forty individual "Scripture Studies." Each study focuses on

one general area of study. These studies enable individuals or groups to do in-depth, topical studies of the Bible. They are also invaluable to the Bible study teacher in preparing lessons. This book is divided into two Volumes. Volume I covers the essential doctrines of the Christian faith. It is these doctrines that separate the true Christian faith from cultic and other deviations. Included here are studies on such essential doctrines as the authority and reliability of the Scriptures, the attributes of God, the Trinity, and forgiveness and salvation. Volume II of this book then covers controversial theologies, cults, and ethics. Included here are studies on Catholicism, Calvinism, baptism, end-time prophecy, Jehovah's Witnesses, Mormonism, sexual issues, church issues, and many more topics.
